WITH SINCERELY MEDIA

SERVICES

I offer Social Media Coaching:

You've decided you want to do your Social Media yourself, you don't want to or can't afford to hire a Social Media Manager, but you're not sure what to do and you need help. That's where I come in, in our coaching sessions you will get my professional feedback on what you've done that week, you'll get your questions answered and we can work through anything you would like to learn how to do.

As a bonus you also get a discount on the Product Session I offer so that if you'd like professional photos they're available to you at a great price.

What platforms do I coach?

I coach you on running your Facebook & Instagram

What do you get?

You get a 1 hour coaching session a week (This means you get 4 a month). During this session we go through questions you have, something you'd like to learn about and planning your Social Media.

What if you don't have accounts on these platforms?

I charge R500 per account set up. (If you'd like me to set them up for you)

What does this cost?

Coaching costs R1000 a month.

What you do get is a R500 discount off of the Product Session photoshoot that I offer, you will get the Session worth R1500 at R1000. You can book as many of these a month as you would like.

Any additional coaching sessions will cost R200 per session.

You will be invoiced for this at the end of each month.
